

**AUGUSTA**  
**ENVIRONMENTAL SERVICES**  
**GENERATOR'S WASTE PROFILE**  
**INSTRUCTIONS**

Information on this form is used to determine if waste may be transported, treated, stored, or disposed in a legal, safe and environmentally sound manner. This information will be maintained in strict confidence. Answers must be provided for all sections of this form. A response of "none" or "n/a" can be made, if appropriate.

**A Waste Generator Facility Information**

- Provide the name of the facility where the waste was generated.
- Provide the street address (not a PO Box), City State and Zip of the facility where the waste is generated.
- Indicate the Generator's US EPA ID # and/or STATE ID # (as applicable).
- Provide the name and title of the person who can answer technical questions about the waste.
- Provide the Email address/Phone/FAX number in the spaces provided.

**B Transporter Information**

- Provide the transporter name (name of the hauler) transporting the waste.
- Provide the street address (not a PO Box), City State and Zip of the hauler transporting the waste.
- Provide the contact name and Title of the person who can answer questions about hauling the waste.
- Provide the Email address/Phone/FAX number for the hauler contact (not the driver).

**C Waste Stream Information**

**1. Description**

- Provide the common waste name and describe the process generating the waste or source of contamination.
- Check appropriate boxes providing descriptions for odor, reactivity and shock sensitivity if applicable.
- List waste constituents indicating % of total volume. Total of the maximum values must be greater than or equal to 100%.

**2. Estimated Quantity of Waste and Shipping Information**

- Check the appropriate boxes for one-time/repeat event and DOT Hazardous Material.
- If DOT Hazardous Material, provide Hazard Class ID#, reportable quantity/units, shipping name and description.
- Check the appropriate boxes or describe the type of shipping container.
- Indicate the total quantity for one-time events and the expected annual quantity for repeat events (waste streams).
- Indicate the expected number of units (ex. Tons, not shipments) per month/quarter/year.
- Indicate safety requirements.

**D Regulatory Status**

Check the appropriate box.

**E Hazardous Characteristics**

Check all that apply.

**F. Health Hazard Characteristics**

Check all that apply.

### **G. Toxicity Characteristics**

Check the boxes as appropriate to indicate the presents (at any concentration) of listed analytes.

### **H. Certifications**

- Provide your name, title and the name of your company.
- Acknowledge that all shipments of this waste shall be accompanied by a Non-Hazardous Waste Manifest and that all manifests under this profile shall reference this profile number (at the top of the approved profile form.)

By checking the acknowledgement box, the Generator attests to the following

#### **I certify:**

**This waste is not a “hazardous waste” as defined by US EPA or the State and does not contain regulated radioactive materials or regulated concentrations of PCB’s. The information contained herein are true and accurate descriptions of the waste material. All relevant information regarding known or suspected hazards in the possession of the Generator has been disclosed. The analytical data presented herein or attached hereto were derived from testing a representative sample taken in accordance with 40 CFR 261.20 (c) or equivalent rules. If any changes occur in the character of the waste, the Generator shall notify the Landfill prior to providing the waste to the Landfill.**

### **I. Review and Approvals**

To be completed by Augusta-Environmental Services Staff.
